

## ANPR Solutions for Smarter Security & Operations

Welcome to our ANPR (Automatic number Plate Recognition) Service.

At Elite we believe in providing our clients with our fully integrated total parking and vehicle movement solution, a system that intelligently manages an Organisations entire portfolio or simply single locations vehicle access, ensuring that only authorised users benefit from the managed parking facilities, while controlling contractor & delivery services stay durations.

### What is ANPR?

Automatic Number Plate Recognition (ANPR) technology uses advanced cameras and AI-powered software to capture, read, and analyse vehicle license plates in real time. It delivers accurate, automated monitoring for security, traffic management, and business efficiency.

---

### Key Benefits

- ✓ **Enhanced Security** – Monitor and record all vehicle entries and exits automatically.
- ✓ **Faster Operations** – Replace manual checks with seamless, automated processes.
- ✓ **24/7 Reliability** – High-accuracy recognition, day or night, in all weather conditions.
- ✓ **Data Insights** – Generate detailed reports for analysis, compliance, and planning.
- ✓ **Integration Ready** – Works with existing CCTV, access control, and parking systems.

---

### Applications

-  **Parking Management** – Automate access, payments, and ticketless entry.
-  **Commercial Sites** – Secure employee and visitor vehicle access.
-  **Industrial Facilities** – Track logistics, fleet movement, and delivery compliance.
-  **Law Enforcement** – Identify stolen, unregistered, or suspicious vehicles instantly.
-  **Smart Cities** – Improve traffic flow, tolling, and urban planning.

---

### Why Choose Our ANPR Solutions?

- **Accuracy up to 98%** with AI-enhanced recognition.
- **Scalable** for small sites or city-wide deployments.
- **Plug & Play Setup** – minimal infrastructure changes required.
- **Customisable** to match your unique business needs.
- **Dedicated Support** from installation to ongoing maintenance.

---

## Our Fully Integrated Service Provision
